SUMMARY

Dynamic professional with a unique background in early childhood development and multimedia design. Bringing over years of hands-on experience as an educator, and creating inspiring learning environments. After a transformative year at a Danish Højskole, I embraced a new direction and began studying multimedia design. This unique blend of experiences has honed my skills in communication, creativity, and digital media, and I am eager to bring these skills to a challenging new role.

EXPERIENCE

BØRNEHUSET SLUSEHOLMEN | Copenhagen | 2022 - Present

Part-time Pedagogue & On-call Substitute

Each week, I step away from my computer screen to dive into the world of daycare. As an on-call substitute, I fill in wherever I'm needed, always ready to adapt and keep things running smoothly. I love to bring a bit of my multimedia background into the mix, spicing up both learning and playtime with creative twists.

- Renowned for consistently infusing the environment with positivity and high energy
- Master of making fun out of nothing

BØRNEHUSET UNIVERSET | Copenhagen | 2021 - 2022

Pedagogue & Team Leader

In this role, I got to wear many hats - chief planner, personal cheerleader, problem-solver - you name it! With a group of 12 unique kiddos under my wing, I put together curriculums that catered to each child's individual needs and growth. When it wasn't about my group, I was a solid ally for other departments, ready to step in and brainstorm solutions for any professional concerns.

- In-house alternative language whizz
- Mastermind behind long-term educational plans
- Quick on my feet with on-the-spot problem-solving
